

Showcase your practice to area residents!

Once a year, a few of the area's most respected local healthcare physicians are featured in Living Magazine's **top DOCS Special Section**. Now in its 13th year, **top DOCS** returns to provide our physician partners an opportunity to showcase their specialties to area residents.

WHY PARTNER WITH LIVING MAGAZINE?

One of the most important aspects of your practice is building a good reputation within the community you serve. When you are profiled in the pages of **top DOCS**, your brand visibility is amplified as it is viewed by tens of thousands of print and digital readers. This unique method of marketing is an excellent way to introduce your practice to a captive and targeted audience.

Your profile in **top DOCS** includes a staff writer who will highlight your credentials and medical specialties along with a short biography detailing past achievements and current qualifications, truly showcasing your gifts and talents.

Enjoy all the benefits of localized direct-to-market advertising — and as a special bonus, your article will be listed on LivingMagazine.net's homepage for one year under "**Top DOCS.**"

Sincerely,
The Living Magazine Team
